

## Novisto Welcomes Two New ESG Analysts

The Novisto team is thrilled to welcome Monica Simha and Valère Verner as ESG analysts. They will ensure our platform integrates relevant ESG metrics, data, and current best practices.

With an MBA in sustainability and her academic and professional experience, Monica Simha brings a solid background in sustainability-related management and reporting practices with a global perspective. She previously had consulting and research roles at Goodera and the Indian Institute of Management Bangalore.

Valère Verner has been promoted to ESG Analyst following a successful internship with Novisto. Valère recently completed a Masters degree in Sustainability Management at HEC Montréal and Sciences Po Bordeaux. He brings a solid background in ESG management, frameworks, and ratings thanks to previous work experience at Vigeo Eiris.

“Our ESG analysts sit at a unique intersection of both Customer Success and Product ” says Edouard Clément, CTO. “Monica and Valère will be instrumental in both developing Novisto’s ESG-first platform as well as supporting our customers’ ESG data and reporting journey.”

Our growing team of ESG experts is testament to the knowledge and insights Novisto aims to provide customers through our end-to-end enterprise software.
